SUBJECT INDEX

Acidic water

Modeling Thermal Stratification in Transparent Adirondack Lake, Dale A. Rice, Ting-Kuei Tsay, Steven W. Effler and Charles T. Driscoll, WR July 89 p440-456.

Agricultural economics

Water Resources Management in North China Plain, Robert Willis, Brad A. Finney and Daoshuai Zhang, WR Sept. 89 p598-615.

Agricultural engineering

Potential of Irrigated Agriculture in Syria, Adel F. Bichara, WR May 89 p358-366.

Agriculture

Potential of Irrigated Agriculture in Syria, Adel F. Bichara, WR May 89 p358-366.

Water Resources Management in North China Plain, Robert Willis, Brad A. Finney and Daoshuai Zhang, WR Sept. 89 p598-615.

Algorithms

Network Flow Algorithm Applied to California Aqueduct Simulation, Francis I. Chung, Michael C. Archer and Johannes J. DeVries, WR Mar. 89 p131-147.

Rainfall Intervention Analysis for On-Line Applications, Tep Sastri and Juan B. Valdes, WR July 89 p397-415.

Aqueducts

Aqueduct and Reservoir Capacities for Distribution Systems, Lawrence E. Flynn and Miguel A. Mariño, WR Sept. 89 p547-565.

Joint Reservoir and Aqueduct Design and Operation, Lawrence E. Flynn and Miguel A. Mariño, WR Mar. 88 p179-196.

On Least-Cost Design of Aqueduct Systems, Konstantine P. Georgakakos and Remigio H. Galarraga Sánchez, WR July 89 p486-502.

Aquifers

Chance-Constrained Model for Management of Stream-Aquifer System, Mohamed M. S. Hantush and Miguel A. Mariño, WR May 89 p259-277.

Water Resources of the GCC: International Aspects, Remy L. de Jong, WR July 89 p503-510.

Benefit cost analysis

Floodplain-Management Plan Enumeration, David T. Ford and Allan Oto, WR July 89 p472-485.

Hydropower Optimization via Sequential Quadratic Programming, Gustavo E. Díz and Darrell G. Fontane, WR Nov. 89 p715-734.

Brackish water

Design of Dilution Junctions for Water-Quality Control, D. Pessen, G. Sinai, K. H. Fasol and M. Reike, WR Nov. 89 p829-845.

Bureau of Reclamation

Implementation Strategies for Salinity Projects, Darrell G. Fontane, John W. Labadie, Bruce Loftis and David H. Merritt, WR Sept. 89 p671-683.

Calibration

Implicit Network Calibration, Lindell E. Ormsbee, WR Mar. 89 p243-257.

California

Network Flow Algorithm Applied to California Aqueduct Simulation, Francis I. Chung, Michael C. Archer and Johannes J. DeVries, WR Mar. 89 p131-147.

Capacity

A Capacity Expansion Model for Hydrothermal Power Systems, Junji Matsumoto, Friedrich E. Fahlbusch and Price E. Stiffler, WR Mar. 89 p165-185.

China, People's Republic of

Major Water Resource Problems and Projects in China, Hou Yuguang and Wen-sen Chu, WR Jan. 88 p108-114.

Water Resources Management in North China Plain, Robert Willis, Brad A. Finney and Daoshuai Zhang, WR Sept. 89 p598-615.

Civil engineering

Public Involvement, Conflict Management: Means to EQ and Social Objectives, Jerome Delli Priscoli, WR Jan. 89 p31-42.

Colorado

Network Models Water of Rights and System Operations, Charles M. Brendecke, William B. DeOreo, Elizabeth A. Payton and Lee T. Rozaklis, WR Sept. 89 p684-696.

Colorado River

Implementation Strategies for Salinity Projects, Darrell G. Fontane, John W. Labadie, Bruce Loftis and David H. Merritt, WR Sept. 89 p671-683.

Computer aided instruction

Improving Water Delivery System Operation Using Training Simulators, Robert J. Houghtalen and Jim C. Loftis, WR Sept. 89 p616-629.

Computer analysis

Rainfall Intervention Analysis for On-Line Applications, Tep Sastri and Juan B. Valdes, WR July 89 p397-415.

Computer applications

Improving Water Delivery System Operation Using Training Simulators, Robert J. Houghtalen and Jim C. Loftis, WR Sept. 89 p616-629.

Network Models Water of Rights and System Operations, Charles M. Brendecke, William B. DeOreo, Elizabeth A. Payton and Lee T. Rozaklis, WR Sept. 89 p684-696.

Computer models

A Capacity Expansion Model for Hydrothermal Power Systems, Junji Matsumoto, Friedrich E. Fahlbusch and Price E. Stiffler, WR Mar. 89 p165-185.

Computer programs

Evaluation of Heuristic Program for Scheduling Treatment Plant Pumps, Pierre Lannuzel and Leonard Ortolano, WR July 89 p457-471.

Computer systems programs

Developing a Data Base for Use in Groundwater Management, Mark Maimone, WR Jan. 89 p75-93.

Computerized control systems

Design of Dilution Junctions for Water-Quality Control, D. Pessen, G. Sinai, K. H. Fasol and M. Reike, WR Nov. 89 p829-845.

Computerized simulation

Design of Dilution Junctions for Water-Quality Control, D. Pessen, G. Sinai, K. H. Fasol and M. Reike, WR Nov. 89 p829-845.

Floodplain-Management Plan Enumeration, David T. Ford and Allan Oto, WR July 89 p472-485.

Confidence intervals

Correlated Versus Uncorrelated Hydrologic Samples, Hugo A. Loaiciga and Paul F. Hudak, WR Sept. 89 p699-705.

Confidence limit

Pressure and Flow Uncertainty in Water Systems, Andrzej Bargiela and Graham D. Hainsworth, WR Mar. 89 p212-229.

Conflict

Public Involvement, Conflict Management: Means to EQ and Social Objectives, Jerome Delli Priscoli, WR Jan. 89 p31-42.

Technology, Society, and Water Management, Warren Viessman, Jr., WR Jan. 89 p48-51.

Control

Implementation Strategies for Salinity Projects, Darrell G. Fontane, John W. Labadie, Bruce Loftis and David H. Merritt, WR Sept. 89 p671-683.

Control systems

Implementation Strategies for Salinity Projects, Darrell G. Fontane, John W. Labadie, Bruce Loftis and David H. Merritt, WR Sept. 89 p671-683.

Correlation analysis

Correlated Versus Uncorrelated Hydrologic Samples, Hugo A. Loaiciga and Paul F. Hudak, WR Sept. 89 p699-705.

Correlation techniques

Low-Flow Frequency Analysis Using Probability-Plot Correlation Coefficients, Richard M. Vogel and Charles N. Kroll, WR May 89 p338-357.

Cost analysis

Risk Assessment of Extreme Events: Application, Per-Ola Karlsson and Yacov Y. Haimes, WR May 89 p299-320.

Cost effectiveness

On Least-Cost Design of Aqueduct Systems, Konstantine P. Georgakakos and Remigio H. Galarraga Sánchez, WR July 89 p486-502.

Cost minimization

Methodology for Improving Pump Operaton Efficiency, Lindell E. Ormsbee, Thomas M. Walski, Donald V. Chase and Wayne W. Sharp, WR Mar. 89 p148-164.

Minimization of Raw Water Pumping Costs Using MILP, Keith W. Little and Brian J. McCrodden, WR July 89 p511-522.

On Least-Cost Design of Aqueduct Systems, Konstantine P. Georgakakos and Remigio H. Galarraga Sánchez, WR July 89 p486-502.

Water Distribution System Design Under Uncertainties, Kevin E. Lansey, Ning Duan, Larry W. Mays and Yeou-Koung Tung, WR Sept. 89 p630-645.

Crop production

Water Resources Management in North China Plain, Robert Willis, Brad A. Finney and Daoshuai Zhang, WR Sept. 89 p598-615.

Cross sections

Routing Procedure for Ungaged Channels, Daniel B. Pridal and Wesley P. James, WR Jan. 89 p108-121.

Dam safety

Risk Assessment of Extreme Events: Application, Per-Ola Karlsson and Yacov Y. Haimes, WR May 89 p299-320.

Damage estimation

Production, Cost, and Increased Salinity in Water, Donald E. Agthe and J. Craig Tinney, WR Nov. 89 p824-828.

Data banks

Developing a Data Base for Use in Groundwater Management, Mark Maimone, WR Jan. 89 p75-93.

Data collection

Remote Sensing and Fully Distributed Modeling for Flood Forecasting, Tao Tao and Nicholas Kouwen, WR Nov. 89 p809-823.

Database management systems

Decision Support for Estuarine Water Quality Management, Uwe Arnold and Gerald T. Orlob, WR Nov. 89 p775-792.

Decision making

Decision Support for Estuarine Water Quality Management, Uwe Arnold and Gerald T. Orlob, WR Nov. 89 p775-792.

Multicriterion Selection of Wastewater Management Alternatives, Aregai Tecle, Martin Fogel and Lucien Duckstein, WR July 88 p383-398.

Risk Assessment of Extreme Events: Application, Per-Ola Karlsson and Yacov Y. Haimes, WR May 89 p299-320.

Technology, Society, and Water Management, Warren Viessman, Jr., WR Jan. 89 p48-51.

Deoxygenation

Management of Phosphorus and Nitrogen Inputs to Lake Rotorua, New Zealand, J. C. Rutherford, R. D. Pridmore and E. White, WR July 89 p431-439.

Design

Optimum Diversion Plan for Hydropower Scheme, Tawatchai Tingsanchali and Carlos C. Carriaga, WR Mar. 89 p195-211.

Developing countries

Water and Urban Land-Use Planning in Cali, Colombia, Mark A. Ridgley, WR Nov. 89 p753-774.

Development

Optimal Sequencing of Development for Hydropower Stations in Cascade, Yonghua Wan, Shiyun Huang and Miguel A. Mariño, WR May 89 p379-395.

Dilution

Design of Dilution Junctions for Water-Quality Control, D. Pessen, G. Sinai, K. H. Fasol and M. Reike, WR Nov. 89 p829-845.

Discriminate analysis

Comparison of Method of Residuals and Cluster Analysis for Flood Regionalization, Nageshwar R. Bhaskar and Carol A. O'Connor, WR Nov. 89 p793-808.

Diversion

Optimum Diversion Plan for Hydropower Scheme, Tawatchai Tingsanchali and Carlos C. Carriaga, WR Mar. 89 p195-211.

Dynamic programming

Aqueduct and Reservoir Capacities for Distribution Systems, Lawrence E. Flynn and Miguel A. Mariño, WR Sept. 89 p547-565.

Implementation Strategies for Salinity Projects, Darrell G. Fontane, John W. Labadie, Bruce Loftis and David H. Merritt, WR Sept. 89 p671-683.

Improving Water Delivery System Operation Using Training Simulators, Robert J. Houghtalen and Jim C. Loftis, WR Sept. 89 p616-629.

Methodology for Improving Pump Operaton Efficiency, Lindell E. Ormsbee, Thomas M. Walski, Donald V. Chase and Wayne W. Sharp, WR Mar. 89 p148-164.

On Least-Cost Design of Aqueduct Systems, Konstantine P. Georgakakos and Remigio H. Galarraga Sánchez, WR July 89 p486-502.

Optimal Operation of Water Distribution Systems, U. Zessler and U. Shamir, WR Nov. 89 p735-752.

Optimal Sequencing of Development for Hydropower Stations in Cascade, Yonghua Wan, Shiyun Huang and Miguel A. Mariño, WR May 89 p379-395.

Economic analysis

Aqueduct and Reservoir Capacities for Distribution Systems, Lawrence E. Flynn and Miguel A. Mariño, WR Sept. 89 p547-565.

Production, Cost, and Increased Salinity in Water, Donald E. Agthe and J. Craig Tinney, WR Nov. 89 p824-828.

Economic factors

Production, Cost, and Increased Salinity in Water, Donald E. Agthe and J. Craig Tinney, WR Nov. 89 p824-828.

Economic feasibility

Implementation Strategies for Salinity Projects, Darrell G. Fontane, John W. Labadie, Bruce Loftis and David H. Merritt, WR Sept. 89 p671-683.

Education

Education—Key to Dealing with Social and Environmental Objectives, Ernest T. Smerdon, WR Jan. 89 p43-17.

Electric power demand

A Capacity Expansion Model for Hydrothermal Power Systems, Junji Matsumoto, Friedrich E. Fahlbusch and Price E. Stiffler, WR Mar. 89 p165-185.

Environmental effects

Impact Evaluation Procedures: Theory, Practice, and Needs, Benjamin F. Hobbs, Eugene Z. Stakhiv and Walter M. Grayman, WR Jan. 89 p2-21.

Environmental issues

Education—Key to Dealing with Social and Environmental Objectives, Ernest T. Smerdon, WR Jan. 89 p43-17.

Environmental planning

Technology, Society, and Water Management, Warren Viessman, Jr., WR Jan. 89 p48-51.

Environmental quality

Public Involvement, Conflict Management: Means to EQ and Social Objectives, Jerome Delli Priscoli, WR Jan. 89 p31-42.

Error analysis

Pollutant Washoff Under Noise-Corrupted Runoff Conditions, G. G. Patry and A. Kennedy, WR Sept. 89 p646-657.

Estuaries

Decision Support for Estuarine Water Quality Management, Uwe Arnold and Gerald T. Orlob, WR Nov. 89 p775-792.

Eutrophication

Management of Phosphorus and Nitrogen Inputs to Lake Rotorua, New Zealand, J. C. Rutherford, R. D. Pridmore and E. White, WR July 89 p431-439.

Evaluation

Evaluation of Heuristic Program for Scheduling Treatment Plant Pumps, Pierre Lannuzel and Leonard Ortolano, WR July 89 p457-471.

Impact Evaluation Procedures: Theory, Practice, and Needs, Benjamin F. Hobbs, Eugene Z. Stakhiv and Walter M. Grayman, WR Jan. 89 p2-21.

Expansion

A Capacity Expansion Model for Hydrothermal Power Systems, Junji Matsumoto, Friedrich E. Fahlbusch and Price E. Stiffler, WR Mar. 89 p165-185.

Expert systems

Evaluation of Heuristic Program for Scheduling Treatment Plant Pumps, Pierre Lannuzel and Leonard Ortolano, WR July 89 p457-471.

Expert System for Calibrating SWMM, C. Baffaut and J. W. Delleur, WR May 89 p278-298.

Farms

Aqueduct and Reservoir Capacities for Distribution Systems, Lawrence E. Flynn and Miguel A. Mariño, WR Sept. 89 p547-565.

Federal-state relationships

New Federalism and Social and Environmental Goals, David H. Moreau, WR Jan. 89 p22-30.

Finance

Regionalization in Water Supply Industry: Status and Needs, Neil S. Grigg, WR May 89 p367-378.

Financing

New Federalism and Social and Environmental Goals, David H. Moreau, WR Jan. 89 p22-30.

Fish habitats

Hydraulic Geometry of Streams and Stream Habitat Assessment, Krishan P. Singh and Sally McConkey Broeren, WR Sept. 89 p583-597.

Flood control

Major Water Resource Problems and Projects in China, Hou Yuguang and Wen-sen Chu, WR Jan. 88 p108-114.

Flood damage

Expected Annual Damages and Uncertainties in Flood Frequency Estimation, Nigel W. Arnell, WR Jan. 89 p94-107.

Flood forecasting

Expected Annual Damages and Uncertainties in Flood Frequency Estimation, Nigel W. Arnell, WR Jan. 89 p94-107.

Real-Time Flood Management Model for Highland Lake System, Olcay Unver, Larry W. Mays and Kevin Lansey, WR Sept. 87 p620-638.

Remote Sensing and Fully Distributed Modeling for Flood Forecasting, Tao Tao and Nicholas Kouwen, WR Nov. 89 p809-823.

Flood frequency

Cluster Analysis as Applied to Regional Flood Frequency, Donald H. Burn, WR Sept. 89 p567-582.

Comparison of Method of Residuals and Cluster Analysis for Flood Regionalization, Nageshwar R. Bhaskar and Carol A. O'Connor, WR Nov. 89 p793-808.

Flood plain planning

Floodplain-Management Plan Enumeration, David T. Ford and Allan Oto, WR July 89 p472-485.

Flood plains

Comparison of Method of Residuals and Cluster Analysis for Flood Regionalization, Nageshwar R. Bhaskar and Carol A. O'Connor, WR Nov. 89 p793-808.

Flood routing

Real-Time Flood Management Model for Highland Lake System, Olcay Unver, Larry W. Mays and Kevin Lansey, WR Sept. 87 p620-638.

Floods

Comparison of Method of Residuals and Cluster Analysis for Flood Regionalization, Nageshwar R. Bhaskar and Carol A. O'Connor, WR Nov. 89 p793-808.

Expected Annual Damages and Uncertainties in Flood Frequency Estimation, Nigel W. Arnell, WR Jan. 89 p94-107.

Hydrodynamic Analysis of Floods in Urban System, C. E. M. Tucci, B. P. F. Braga and M. F. Amaral, WR July 89 p523-540.

Flow

Hydraulic Geometry of Streams and Stream Habitat Assessment, Krishan P. Singh and Sally McConkey Broeren, WR Sept. 89 p583-597.

Flow characteristics

Cluster Analysis as Applied to Regional Flood Frequency, Donald H. Burn, WR Sept. 89 p567-582.

Flow control

Design of Dilution Junctions for Water-Quality Control, D. Pessen, G. Sinai, K. H. Fasol and M. Reike, WR Nov. 89 p829-845.

Flow simulation

Network Flow Algorithm Applied to California Aqueduct Simulation, Francis I. Chung, Michael C. Archer and Johannes J. DeVries, WR Mar. 89 p131-147.

Forecasting

Rainfall Intervention Analysis for On-Line Applications, Tep Sastri and Juan B. Valdes, WR July 89 p397-415.

Frequency analysis

Low-Flow Frequency Analysis Using Probability-Plot Correlation Coefficients, Richard M. Vogel and Charles N. Kroll, WR May 89 p338-357.

Funding allocations

Implementation Strategies for Salinity Projects, Darrell G. Fontane, John W. Labadie, Bruce Loftis and David H. Merritt, WR Sept. 89 p671-683.

Geographic information systems

Decision Support for Estuarine Water Quality Management, Uwe Arnold and Gerald T. Orlob, WR Nov. 89 p775-792.

Geometry

Hydraulic Geometry of Streams and Stream Habitat Assessment, Krishan P. Singh and Sally McConkey Broeren, WR Sept. 89 p583-597.

Groundwater

Water Resources Management in North China Plain, Robert Willis, Brad A. Finney and Daoshuai Zhang, WR Sept. 89 p598-615.

Groundwater management

Developing a Data Base for Use in Groundwater Management, Mark Maimone, WR Jan. 89 p75-93.

Water Resources Management in North China Plain, Robert Willis, Brad A. Finney and Daoshuai Zhang, WR Sept. 89 p598-615.

Heuristics

Evaluation of Heuristic Program for Scheduling Treatment Plant Pumps, Pierre Lannuzel and Leonard Ortolano, WR July 89 p457-471.

Human factors

Public Involvement, Conflict Management: Means to EQ and Social Objectives, Jerome Delli Priscoli, WR Jan. 89 p31-42.

Hydraulic conductivity

Chance-Constrained Model for Management of Stream-Aquifer System, Mohamed M. S. Hantush and Miguel A. Mariño, WR May 89 p259-277.

Hydraulics

Hydraulic Geometry of Streams and Stream Habitat Assessment, Krishan P. Singh and Sally McConkey Broeren, WR Sept. 89 p583-597.

Routing Procedure for Ungaged Channels, Daniel B. Pridal and Wesley P. James, WR Jan. 89 p108-121.

Hydrodynamics

Hydrodynamic Analysis of Floods in Urban System, C. E. M. Tucci, B. P. F. Braga and M. F. Amaral, WR July 89 p523-540.

Hydroelectric power generation

Hydropower Optimization via Sequential Quadratic Programming, Gustavo E. Díz and Darrell G. Fontane, WR Nov. 89 p715-734.

Optimum Diversion Plan for Hydropower Scheme, Tawatchai Tingsanchali and Carlos C. Carriaga, WR Mar. 89 p195-211.

Hydroelectric powerplants

Hydropower Optimization via Sequential Quadratic Programming, Gustavo E. Díz and Darrell G. Fontane, WR Nov. 89 p715-734.

Optimal Sequencing of Development for Hydropower Stations in Cascade, Yonghua Wan, Shiyun Huang and Miguel A. Mariño, WR May 89 p379-395.

Hydrographs

Routing Procedure for Ungaged Channels, Daniel B. Pridal and Wesley P. James, WR Jan. 89 p108-121.

Hydrologic data

Correlated Versus Uncorrelated Hydrologic Samples, Hugo A. Loaiciga and Paul F. Hudak, WR Sept. 89 p699-705.

Hydrologic models

Remote Sensing and Fully Distributed Modeling for Flood Forecasting, Tao Tao and Nicholas Kouwen, WR Nov. 89 p809-823.

Hydrology

Hydrodynamic Analysis of Floods in Urban System, C. E. M. Tucci, B. P. F. Braga and M. F. Amaral, WR July 89 p523-540.

Real-Time Flood Management Model for Highland Lake System, Olcay Unver, Larry W. Mays and Kevin Lansey, WR Sept. 87 p620-638.

Stormwater Detention Basin Nutrient Removal Efficiency, Jeffrey Dee Holler, WR Jan. 89 p52-63.

Water Resources of the GCC: International Aspects, Remy L. de Jong, WR July 89 p503-510.

Water Supply Yield Analysis for the Washington Metropolitan Area, James A. Smith, WR Mar. 89 p230-242.

Implementation

Implementation Strategies for Salinity Projects, Darrell G. Fontane, John W. Labadie, Bruce Loftis and David H. Merritt, WR Sept. 89 p671-683.

Infiltration

Subsurface Water in River Beds as Source of Rural Water Supply Schemes, S. P. Rajagopalan and N. B. Narasimha Prasad, WR Mar. 89 p186-194.

Inflow

CCGP Model for Multiobjective Reservoir Systems, Chaweng Changchit and M. Palmer Terrell, WR Sept. 89 p658-670.

Instream flow

Hydraulic Geometry of Streams and Stream Habitat Assessment, Krishan P. Singh and Sally McConkey Broeren, WR Sept. 89 p583-597.

Interactive graphics

Decision Support for Estuarine Water Quality Management, Uwe Arnold and Gerald T. Orlob, WR Nov. 89 p775-792.

Irrigation

Improving Water Delivery System Operation Using Training Simulators, Robert J. Houghtalen and Jim C. Loftis, WR Sept. 89 p616-629.

Potential of Irrigated Agriculture in Syria, Adel F. Bichara, WR May 89 p358-366.

Irrigation programs

Potential of Irrigated Agriculture in Syria, Adel F. Bichara, WR May 89 p358-366.

Irrigation systems

Potential of Irrigated Agriculture in Syria, Adel F. Bichara, WR May 89 p358-366.

Lakes

Estimating Terminal Lake Level Frequencies, Lawrence H. Woodbury and G. Padmanabhan, WR May 89 p321-337.

Modeling Thermal Stratification in Transparent Adirondack Lake, Dale A. Rice, Ting-Kuei Tsay, Steven W. Effler and Charles T. Driscoll, WR July 89 p440-456.

Land development

Potential of Irrigated Agriculture in Syria, Adel F. Bichara, WR May 89 p358-366.

Land usage planning

Water and Urban Land-Use Planning in Cali, Colombia, Mark A. Ridgley, WR Nov. 89 p753-774.

Landsat

Remote Sensing and Fully Distributed Modeling for Flood Forecasting, Tao Tao and Nicholas Kouwen, WR Nov. 89 p809-823.

Low flow

Low-Flow Frequency Analysis Using Probability-Plot Correlation Coefficients, Richard M. Vogel and Charles N. Kroll, WR May 89 p338-357.

Management planning

Floodplain-Management Plan Enumeration, David T. Ford and Allan Oto, WR July 89 p472-485.

Mathematical models

Evaluation of Heuristic Program for Scheduling Treatment Plant Pumps, Pierre Lannuzel and Leonard Ortolano, WR July 89 p457-471.

Hydrodynamic Analysis of Floods in Urban System, C. E. M. Tucci, B. P. F. Braga and M. F. Amaral, WR July 89 p523-540.

Optimal Sequencing of Development for Hydropower Stations in Cascade, Yonghua Wan, Shiyun Huang and Miguel A. Mariño, WR May 89 p379-395.

Water Distribution System Design Under Uncertainties, Kevin E. Lansey, Ning Duan, Larry W. Mays and Yeou-Koung Tung, WR Sept. 89 p630-645.

Measurement

Pressure and Flow Uncertainty in Water Systems, Andrzej Bargiela and Graham D. Hainsworth, WR Mar. 89 p212-229.

Methodology

Hydraulic Geometry of Streams and Stream Habitat Assessment, Krishan P. Singh and Sally McConkey Broeren, WR Sept. 89 p583-597.

Microcomputers

Decision Support for Estuarine Water Quality Management, Uwe Arnold and Gerald T. Orlob, WR Nov. 89 p775-792.

Middle East

Water Resources of the GCC: International Aspects, Remy L. de Jong, WR July 89 p503-510.

Mixing

Design of Dilution Junctions for Water-Quality Control, D. Pessen, G. Sinai, K. H. Fasol and M. Reike, WR Nov. 89 p829-845.

Modeling

Rainfall Intervention Analysis for On-Line Applications, Tep Sastri and Juan B. Valdes, WR July 89 p397-415.

Water and Urban Land-Use Planning in Cali, Colombia, Mark A. Ridgley, WR Nov. 89 p753-774.

Models

CCGP Model for Multiobjective Reservoir Systems, Chaweng Changchit and M. Palmer Terrell, WR Sept. 89 p658-670.

Hydraulic Geometry of Streams and Stream Habitat Assessment, Krishan P. Singh and Sally McConkey Broeren, WR Sept. 89 p583-597.

Hydrodynamic Analysis of Floods in Urban System, C. E. M. Tucci, B. P. F. Braga and M. F. Amaral, WR July 89 p523-540.

Modeling Thermal Stratification in Transparent Adirondack Lake, Dale A. Rice, Ting-Kuei Tsay, Steven W. Effler and Charles T. Driscoll, WR July 89 p440-456.

Monte Carlo method

Pollutant Washoff Under Noise-Corrupted Runoff Conditions, G. G. Patry and A. Kennedy, WR Sept. 89 p646-657.

Pressure and Flow Uncertainty in Water Systems, Andrzej Bargiela and Graham D. Hainsworth, WR Mar. 89 p212-229.

Multiple objective analysis

Multicriterion Selection of Wastewater Management Alternatives, Aregai Tecle, Martin Fogel and Lucien Duckstein, WR July 88 p383-398.

Risk Assessment of Extreme Events: Application, Per-Ola Karlsson and Yacov Y. Haimes, WR May 89 p299-320.

Water and Urban Land-Use Planning in Cali, Colombia, Mark A. Ridgley, WR Nov. 89 p753-774.

Multiple purpose projects

CCGP Model for Multiobjective Reservoir Systems, Chaweng Changchit and M. Palmer Terrell, WR Sept. 89 p658-670.

Network analysis

Implicit Network Calibration, Lindell E. Ormsbee, WR Mar. 89 p243-257.

Network reliability

Water Distribution Reliabiility: Analytical Methods, Janet M. Wagner, Uri Shamir and David H. Marks, WR May 88 p253-275.

Nitrogen

Management of Phosphorus and Nitrogen Inputs to Lake Rotorua, New Zealand, J. C. Rutherford, R. D. Pridmore and E. White, WR July 89 p431-439.

Nonlinear programming

Hydropower Optimization via Sequential Quadratic Programming, Gustavo E. Díz and Darrell G. Fontane, WR Nov. 89 p715-734.

Implicit Network Calibration, Lindell E. Ormsbee, WR Mar. 89 p243-257.

Optimum Diversion Plan for Hydropower Scheme, Tawatchai Tingsanchali and Carlos C. Carriaga, WR Mar. 89 p195-211.

Water Distribution System Design Under Uncertainties, Kevin E. Lansey, Ning Duan, Larry W. Mays and Yeou-Koung Tung, WR Sept. 89 p630-645.

Water Resources Management in North China Plain, Robert Willis, Brad A. Finney and Daoshuai Zhang, WR Sept. 89 p598-615.

Nonpoint pollution

Stormwater Detention Basin Nutrient Removal Efficiency, Jeffrey Dee Holler, WR Jan. 89 p52-63.

Oklahoma

CCGP Model for Multiobjective Reservoir Systems, Chaweng Changchit and M. Palmer Terrell, WR Sept. 89 p658-670.

Operating costs

Methodology for Improving Pump Operaton Efficiency, Lindell E. Ormsbee, Thomas M. Walski, Donald V. Chase and Wayne W. Sharp, WR Mar. 89 p148-164.

Operation

Methodology for Improving Pump Operaton Efficiency, Lindell E. Ormsbee, Thomas M. Walski, Donald V. Chase and Wayne W. Sharp, WR Mar. 89 p148-164.

Optimal control methods

Minimization of Raw Water Pumping Costs Using MILP, Keith W. Little and Brian J. McCrodden, WR July 89 p511-522.

Optimal use

Hydropower Optimization via Sequential Quadratic Programming, Gustavo E. Díz and Darrell G. Fontane, WR Nov. 89 p715-734.

Optimal Operation of Water Distribution Systems, U. Zessler and U. Shamir, WR Nov. 89 p735-752.

Optimization

Hydropower Optimization via Sequential Quadratic Programming, Gustavo E. Díz and Darrell G. Fontane, WR Nov. 89 p715-734.

Implementation Strategies for Salinity Projects, Darrell G. Fontane, John W. Labadie, Bruce Loftis and David H. Merritt, WR Sept. 89 p671-683.

Joint Reservoir and Aqueduct Design and Operation, Lawrence E. Flynn and Miguel A. Mariño, WR Mar. 88 p179-196.

Methodology for Improving Pump Operaton Efficiency, Lindell E. Ormsbee, Thomas M. Walski, Donald V. Chase and Wayne W. Sharp, WR Mar. 89 p148-164.

Minimization of Raw Water Pumping Costs Using MILP, Keith W. Little and Brian J. McCrodden, WR July 89 p511-522.

On Least-Cost Design of Aqueduct Systems, Konstantine P. Georgakakos and Remigio H. Galarraga Sánchez, WR July 89 p486-502.

Optimal Sequencing of Development for Hydropower Stations in Cascade, Yonghua Wan, Shiyun Huang and Miguel A. Mariño, WR May 89 p379-395.

Optimum Diversion Plan for Hydropower Scheme, Tawatchai Tingsanchali and Carlos C. Carriaga, WR Mar. 89 p195-211.

Pressure and Flow Uncertainty in Water Systems, Andrzej Bargiela and Graham D. Hainsworth, WR Mar. 89 p212-229.

Optimization models

Aqueduct and Reservoir Capacities for Distribution Systems, Lawrence E. Flynn and Miguel A. Mariño, WR Sept. 89 p547-565.

Chance-Constrained Model for Management of Stream-Aquifer System, Mohamed M. S. Hantush and Miguel A. Mariño, WR May 89 p259-277.

Network Models Water of Rights and System Operations, Charles M. Brendecke, William B. DeOreo, Elizabeth A. Payton and Lee T. Rozaklis, WR Sept. 89 p684-696.

Water Resources Management in North China Plain, Robert Willis, Brad A. Finney and Daoshuai Zhang, WR Sept. 89 p598-615.

Phosphorus

Management of Phosphorus and Nitrogen Inputs to Lake Rotorua, New Zealand, J. C. Rutherford, R. D. Pridmore and E. White, WR July 89 p431-439.

Phytoplankton

Management of Phosphorus and Nitrogen Inputs to Lake Rotorua, New Zealand, J. C. Rutherford, R. D. Pridmore and E. White, WR July 89 p431-439.

Planning

Network Models Water of Rights and System Operations, Charles M. Brendecke, William B. DeOreo, Elizabeth A. Payton and Lee T. Rozaklis, WR Sept. 89 p684-696.

Optimum Diversion Plan for Hydropower Scheme, Tawatchai Tingsanchali and Carlos C. Carriaga, WR Mar. 89 p195-211.

Pollutants

Pollutant Washoff Under Noise-Corrupted Runoff Conditions, G. G. Patry and A. Kennedy, WR Sept. 89 p646-657.

Pollution abatement

Water and Urban Land-Use Planning in Cali, Colombia, Mark A. Ridgley, WR Nov. 89 p753-774.

Power output

A Capacity Expansion Model for Hydrothermal Power Systems, Junji Matsumoto, Friedrich E. Fahlbusch and Price E. Stiffler, WR Mar. 89 p165-185.

Powerplants

A Capacity Expansion Model for Hydrothermal Power Systems, Junji Matsumoto, Friedrich E. Fahlbusch and Price E. Stiffler, WR Mar. 89 p165-185.

Predictions

Rainfall Intervention Analysis for On-Line Applications, Tep Sastri and Juan B. Valdes, WR July 89 p397-415.

Probabilistic methods

Water Distribution Reliabiility: Analytical Methods, Janet M. Wagner, Uri Shamir and David H. Marks, WR May 88 p253-275.

Probabilistic models

Joint Reservoir and Aqueduct Design and Operation, Lawrence E. Flynn and Miguel A. Mariño, WR Mar. 88 p179-196.

Probability

Low-Flow Frequency Analysis Using Probability-Plot Correlation Coefficients, Richard M. Vogel and Charles N. Kroll, WR May 89 p338-357.

Productivity

Production, Cost, and Increased Salinity in Water, Donald E. Agthe and J. Craig Tinney, WR Nov. 89 p824-828.

Project planning

Optimal Sequencing of Development for Hydropower Stations in Cascade, Yonghua Wan, Shiyun Huang and Miguel A. Mariño, WR May 89 p379-395.

Pumping

Chance-Constrained Model for Management of Stream-Aquifer System, Mohamed M. S. Hantush and Miguel A. Mariño, WR May 89 p259-277.

Evaluation of Heuristic Program for Scheduling Treatment Plant Pumps, Pierre Lannuzel and Leonard Ortolano, WR July 89 p457-471.

Methodology for Improving Pump Operaton Efficiency, Lindell E. Ormsbee, Thomas M. Walski, Donald V. Chase and Wayne W. Sharp, WR Mar. 89 p148-164.

Minimization of Raw Water Pumping Costs Using MILP, Keith W. Little and Brian J. McCrodden, WR July 89 p511-522.

Optimal Operation of Water Distribution Systems, U. Zessler and U. Shamir, WR Nov. 89 p735-752.

Rainfall

Rainfall Intervention Analysis for On-Line Applications, Tep Sastri and Juan B. Valdes, WR July 89 p397-415.

Regional analysis

Cluster Analysis as Applied to Regional Flood Frequency, Donald H. Burn, WR Sept. 89 p567-582.

Comparison of Method of Residuals and Cluster Analysis for Flood Regionalization, Nageshwar R. Bhaskar and Carol A. O'Connor, WR Nov. 89 p793-808.

Regional planning

Regionalization in Water Supply Industry: Status and Needs, Neil S. Grigg, WR May 89 p367-378.

Regulation

Regionalization in Water Supply Industry: Status and Needs, Neil S. Grigg, WR May 89 p367-378.

Reliability

Pressure and Flow Uncertainty in Water Systems, Andrzej Bargiela and Graham D. Hainsworth, WR Mar. 89 p212-229.

Reliability analysis

Water Distribution Reliabiility: Analytical Methods, Janet M. Wagner, Uri Shamir and David H. Marks, WR May 88 p253-275.

Remote sensing

Remote Sensing and Fully Distributed Modeling for Flood Forecasting, Tao Tao and Nicholas Kouwen, WR Nov. 89 p809-823.

Reservoir operation

CCGP Model for Multiobjective Reservoir Systems, Chaweng Changchit and M. Palmer Terrell, WR Sept. 89 p658-670.

Improving Water Delivery System Operation Using Training Simulators, Robert J. Houghtalen and Jim C. Loftis, WR Sept. 89 p616-629.

Joint Reservoir and Aqueduct Design and Operation, Lawrence E. Flynn and Miguel A. Mariño, WR Mar. 88 p179-196.

Real-Time Flood Management Model for Highland Lake System, Olcay Unver, Larry W. Mays and Kevin Lansey, WR Sept. 87 p620-638.

Reservoir storage

Aqueduct and Reservoir Capacities for Distribution Systems, Lawrence E. Flynn and Miguel A. Mariño, WR Sept. 89 p547-565.

Water Rights Modeling and Analysis, Ralph A. Wurbs and W. Brian Walls, WR July 89 p416-430.

Reservoir systems

CCGP Model for Multiobjective Reservoir Systems, Chaweng Changchit and M. Palmer Terrell, WR Sept. 89 p658-670.

Reservoirs

Aqueduct and Reservoir Capacities for Distribution Systems, Lawrence E. Flynn and Miguel A. Mariño, WR Sept. 89 p547-565.

Optimal Sequencing of Development for Hydropower Stations in Cascade, Yonghua Wan, Shiyun Huang and Miguel A. Mariño, WR May 89 p379-395.

Optimum Diversion Plan for Hydropower Scheme, Tawatchai Tingsanchali and Carlos C. Carriaga, WR Mar. 89 p195-211.

Risk

Estimating Terminal Lake Level Frequencies, Lawrence H. Woodbury and G. Padmanabhan, WR May 89 p321-337.

Risk analysis

Risk Assessment of Extreme Events: Application, Per-Ola Karlsson and Yacov Y. Haimes, WR May 89 p299-320.

River beds

Subsurface Water in River Beds as Source of Rural Water Supply Schemes, S. P. Rajagopalan and N. B. Narasimha Prasad, WR Mar. 89 p186-194.

River systems

Hydrodynamic Analysis of Floods in Urban System, C. E. M. Tucci, B. P. F. Braga and M. F. Amaral, WR July 89 p523-540.

Routing

Routing Procedure for Ungaged Channels, Daniel B. Pridal and Wesley P. James, WR Jan. 89 p108-121.

Rural areas

Subsurface Water in River Beds as Source of Rural Water Supply Schemes, S. P. Rajagopalan and N. B. Narasimha Prasad, WR Mar. 89 p186-194.

Salinity

Design of Dilution Junctions for Water-Quality Control, D. Pessen, G. Sinai, K. H. Fasol and M. Reike, WR Nov. 89 p829-845.

Implementation Strategies for Salinity Projects, Darrell G. Fontane, John W. Labadie, Bruce Loftis and David H. Merritt, WR Sept. 89 p671-683.

Production, Cost, and Increased Salinity in Water, Donald E. Agthe and J. Craig Tinney, WR Nov. 89 p824-828.

Salt removal

Implementation Strategies for Salinity Projects, Darrell G. Fontane, John W. Labadie, Bruce Loftis and David H. Merritt, WR Sept. 89 p671-683.

Salt water

Implementation Strategies for Salinity Projects, Darrell G. Fontane, John W. Labadie, Bruce Loftisband David H. Merritt, WR Sept. 89 p671-683.

Salt water barriers

Implementation Strategies for Salinity Projects, Darrell G. Fontane, John W. Labadie, Bruce Loftis and David H. Merritt, WR Sept. 89 p671-683.

Samples

Correlated Versus Uncorrelated Hydrologic Samples, Hugo A. Loaiciga and Paul F. Hudak, WR Sept. 89 p699-705.

Scheduling

Evaluation of Heuristic Program for Scheduling Treatment Plant Pumps, Pierre Lannuzel and Leonard Ortolano, WR July 89 p457-471.

Optimal Operation of Water Distribution Systems, U. Zessler and U. Shamir, WR Nov. 89 p735-752.

Sensitivity analysis

Pressure and Flow Uncertainty in Water Systems, Andrzej Bargiela and Graham D. Hainsworth, WR Mar. 89 p212-229.

Shores

Estimating Terminal Lake Level Frequencies, Lawrence H. Woodbury and G. Padmanabhan, WR May 89 p321-337.

Simulation

Estimating Terminal Lake Level Frequencies, Lawrence H. Woodbury and G. Padmanabhan, WR May 89 p321-337.

Improving Water Delivery System Operation Using Training Simulators, Robert J. Houghtalen and Jim C. Loftis, WR Sept. 89 p616-629.

Simulation models

Decision Support for Estuarine Water Quality Management, Uwe Arnold and Gerald T. Orlob, WR Nov. 89 p775-792.

Expert System for Calibrating SWMM, C. Baffaut and J. W. Delleur, WR May 89 p278-298.

Network Flow Algorithm Applied to California Aqueduct Simulation, Francis I. Chung, Michael C. Archer and Johannes J. DeVries, WR Mar. 89 p131-147.

Water Rights Modeling and Analysis, Ralph A. Wurbs and W. Brian Walls, WR July 89 p416-430.

Social impact

Impact Evaluation Procedures: Theory, Practice, and Needs, Benjamin F. Hobbs, Eugene Z. Stakhiv and Walter M. Grayman, WR Jan. 89 p2-21.

Public Involvement, Conflict Management: Means to EQ and Social Objectives, Jerome Delli Priscoli, WR Jan. 89 p31-42.

Social needs

Education—Key to Dealing with Social and Environmental Objectives, Ernest T. Smerdon, WR Jan. 89 p43-17.

Impact Evaluation Procedures: Theory, Practice, and Needs, Benjamin F. Hobbs, Eugene Z. Stakhiv and Walter M. Grayman, WR Jan. 89 p2-21.

Technology, Society, and Water Management, Warren Viessman, Jr., WR Jan. 89 p48-51.

Social values

Technology, Society, and Water Management, Warren Viessman, Jr., WR Jan. 89 p48-51.

South America

Water and Urban Land-Use Planning in Cali, Colombia, Mark A. Ridgley, WR Nov. 89 p753-774.

Spatial data

Correlated Versus Uncorrelated Hydrologic Samples, Hugo A. Loaiciga and Paul F. Hudak, WR Sept. 89 p699-705.

Specific yield

Chance-Constrained Model for Management of Stream-Aquifer System, Mohamed M. S. Hantush and Miguel A. Mariño, WR May 89 p259-277.

State government

Regionalization in Water Supply Industry: Status and Needs, Neil S. Grigg, WR May 89 p367-378.

Statistical analysis

Cluster Analysis as Applied to Regional Flood Frequency, Donald H. Burn, WR Sept. 89 p567-582.

Comparison of Method of Residuals and Cluster Analysis for Flood Regionalization, Nageshwar R. Bhaskar and Carol A. O'Connor, WR Nov. 89 p793-808.

Statistical models

Water Supply Yield Analysis for the Washington Metropolitan Area, James A. Smith, WR Mar. 89 p230-242.

Stochastic models

Pollutant Washoff Under Noise-Corrupted Runoff Conditions, G. G. Patry and A. Kennedy, WR Sept. 89 p646-657.

Stochastic processes

Correlated Versus Uncorrelated Hydrologic Samples, Hugo A. Loaiciga and Paul F. Hudak, WR Sept. 89 p699-705.

Stormwater

Stormwater Detention Basin Nutrient Removal Efficiency, Jeffrey Dee Holler, WR Jan. 89 p52-63.

Stormwater management

Expert System for Calibrating SWMM, C. Baffaut and J. W. Delleur, WR May 89 p278-298.

Stormwater Detention Basin Nutrient Removal Efficiency, Jeffrey Dee Holler, WR Jan. 89 p52-63.

Water and Urban Land-Use Planning in Cali, Colombia, Mark A. Ridgley, WR Nov. 89 p753-774.

Streamflow

Routing Procedure for Ungaged Channels, Daniel B. Pridal and Wesley P. James, WR Jan. 89 p108-121.

Streams

Chance-Constrained Model for Management of Stream-Aquifer System, Mohamed M. S. Hantush and Miguel A. Mariño, WR May 89 p259-277.

Subsurface flow

Subsurface Water in River Beds as Source of Rural Water Supply Schemes, S. P. Rajagopalan and N. B. Narasimha Prasad, WR Mar. 89 p186-194.

Surface runoff

Pollutant Washoff Under Noise-Corrupted Runoff Conditions, G. G. Patry and A. Kennedy, WR Sept. 89 p646-657.

Surface waters

Water Resources Management in North China Plain, Robert Willis, Brad A. Finney and Daoshuai Zhang, WR Sept. 89 p598-615.

Water Rights Modeling and Analysis, Ralph A. Wurbs and W. Brian Walls, WR July 89 p416-430.

Syria

Potential of Irrigated Agriculture in Syria, Adel F. Bichara, WR May 89 p358-366.

System analysis

Floodplain-Management Plan Enumeration, David T. Ford and Allan Oto, WR July 89 p472-485.

Teamwork

Public Involvement, Conflict Management: Means to EQ and Social Objectives, Jerome Delli Priscoli, WR Jan. 89 p31-42.

Thermal power plants

Optimal Sequencing of Development for Hydropower Stations in Cascade, Yonghua Wan, Shiyun Huang and Miguel A. Mariño, WR May 89 p379-395.

Thermal stratification

Modeling Thermal Stratification in Transparent Adirondack Lake, Dale A. Rice, Ting-Kuei Tsay, Steven W. Effler and Charles T. Driscoll, WR July 89 p440-456.

Time series analysis

Estimating Terminal Lake Level Frequencies, Lawrence H. Woodbury and G. Padmanabhan, WR May 89 p321-337.

Rainfall Intervention Analysis for On-Line Applications, Tep Sastri and Juan B. Valdes, WR July 89 p397-415.

Uncertainty analysis

Expected Annual Damages and Uncertainties in Flood Frequency Estimation, Nigel W. Arnell, WR Jan. 89 p94-107.

Pollutant Washoff Under Noise-Corrupted Runoff Conditions, G. G. Patry and A. Kennedy, WR Sept. 89 p646-657.

Water Distribution System Design Under Uncertainties, Kevin E. Lansey, Ning Duan, Larry W. Mays and Yeou-Koung Tung, WR Sept. 89 p630-645.

Unsteady flow

Real-Time Flood Management Model for Highland Lake System, Olcay Unver, Larry W. Mays and Kevin Lansey, WR Sept. 87 p620-638.

Urban areas

Hydrodynamic Analysis of Floods in Urban System, C. E. M. Tucci, B. P. F. Braga and M. F. Amaral, WR July 89 p523-540.

Urban planning

Water and Urban Land-Use Planning in Cali, Colombia, Mark A. Ridgley, WR Nov. 89 p753-774.

Utilities

Minimization of Raw Water Pumping Costs Using MILP, Keith W. Little and Brian J. McCrodden, WR July 89 p511-522.

Regionalization in Water Supply Industry: Status and Needs, Neil S. Grigg, WR May 89 p367-378.

Volume change

Estimating Terminal Lake Level Frequencies, Lawrence H. Woodbury and G. Padmanabhan, WR May 89 p321-337.

Washington, DC

Water Supply Yield Analysis for the Washington Metropolitan Area, James A. Smith, WR Mar. 89 p230-242.

Wastewater management

Multicriterion Selection of Wastewater Management Alternatives, Aregai Tecle, Martin Fogel and Lucien Duckstein, WR July 88 p383-398.

Water allocation policy

Network Models Water of Rights and System Operations, Charles M. Brendecke, William B. DeOreo, Elizabeth A. Payton and Lee T. Rozaklis, WR Sept. 89 p684-696.

Water conservation

Water Requirements Versus Water Availability in Saudi Arabia, Omar S. Abu Rizaiza and Mohamed N. Allam, WR Jan. 89 p64-74.

Water demand

Water Requirements Versus Water Availability in Saudi Arabia, Omar S. Abu Rizaiza and Mohamed N. Allam, WR Jan. 89 p64-74.

Water Resources of the GCC: International Aspects, Remy L. de Jong, WR July 89 p503-510.

Water distribution

Aqueduct and Reservoir Capacities for Distribution Systems, Lawrence E. Flynn and Miguel A. Mariño, WR Sept. 89 p547-565.

Improving Water Delivery System Operation Using Training Simulators, Robert J. Houghtalen and Jim C. Loftis, WR Sept. 89 p616-629.

Optimal Operation of Water Distribution Systems, U. Zessler and U. Shamir, WR Nov. 89 p735-752.

Pressure and Flow Uncertainty in Water Systems, Andrzej Bargiela and Graham D. Hainsworth, WR Mar. 89 p212-229.

Water Distribution Reliability: Analytical Methods, Janet M. Wagner, Uri Shamir and David H. Marks, WR May 88 p253-275.

Water Distribution System Design Under Uncertainties, Kevin E. Lansey, Ning Duan, Larry W. Mays and Yeou-Koung Tung, WR Sept. 89 p630-645.

Water Resources of the GCC: International Aspects, Remy L. de Jong, WR July 89 p503-510.

Water flow

Pressure and Flow Uncertainty in Water Systems, Andrzej Bargiela and Graham D. Hainsworth, WR Mar. 89 p212-229.

Water level fluctuations

Estimating Terminal Lake Level Frequencies, Lawrence H. Woodbury and G. Padmanabhan, WR May 89 p321-337.

Water levels

Estimating Terminal Lake Level Frequencies, Lawrence H. Woodbury and G. Padmanabhan, WR May 89 p321-337.

Water management

Decision Support for Estuarine Water Quality Management, Uwe Arnold and Gerald T. Orlob, WR Nov. 89 p775-792.

Education—Key to Dealing with Social and Environmental Objectives, Ernest T. Smerdon, WR Jan. 89 p43-17.

Impact Evaluation Procedures: Theory, Practice, and Needs, Benjamin F. Hobbs, Eugene Z. Stakhiv and Walter M. Grayman, WR Jan. 89 p2-21.

Water Requirements Versus Water Availability in Saudi Arabia, Omar S. Abu Rizaiza and Mohamed N. Allam, WR Jan. 89 p64-74.

Water Rights Modeling and Analysis, Ralph A. Wurbs and W. Brian Walls, WR July 89 p416-430.

Water plans

Education—Key to Dealing with Social and Environmental Objectives, Ernest T. Smerdon, WR Jan. 89 p43-17.

Water pressure

Pressure and Flow Uncertainty in Water Systems, Andrzej Bargiela and Graham D. Hainsworth, WR Mar. 89 p212-229.

Water quality

Decision Support for Estuarine Water Quality Management, Uwe Arnold and Gerald T. Orlob, WR Nov. 89 p775-792.

Design of Dilution Junctions for Water-Quality Control, D. Pessen, G. Sinai, K. H. Fasol and M. Reike, WR Nov. 89 p829-845.

Major Water Resource Problems and Projects in China, Hou Yuguang and Wen-sen Chu, WR Jan. 88 p108-114.

Management of Phosphorus and Nitrogen Inputs to Lake Rotorua, New Zealand, J. C. Rutherford, R. D. Pridmore and E. White, WR July 89 p431-439.

Production, Cost, and Increased Salinity in Water, Donald E. Agthe and J. Craig Tinney, WR Nov. 89 p824-828.

Stormwater Detention Basin Nutrient Removal Efficiency, Jeffrey Dee Holler, WR Jan. 89 p52-63.

Water quality control

Decision Support for Estuarine Water Quality Management, Uwe Arnold and Gerald T. Orlob, WR Nov. 89 p775-792.

Water resource management

Optimum Diversion Plan for Hydropower Scheme, Tawatchai Tingsanchali and Carlos C. Carriaga, WR Mar. 89 p195-211.

Water resources

New Federalism and Social and Environmental Goals, David H. Moreau, WR Jan. 89 p22-30.

Potential of Irrigated Agriculture in Syria, Adel F. Bichara, WR May 89 p358-366.

Water Resources of the GCC: International Aspects, Remy L. de Jong, WR July 89 p503-510.

Water resources development

Public Involvement, Conflict Management: Means to EQ and Social Objectives, Jerome Delli Priscoli, WR Jan. 89 p31-42.

Technology, Society, and Water Management, Warren Viessman, Jr., WR Jan. 89 p48-51.

Water resources management

Improving Water Delivery System Operation Using Training Simulators, Robert J. Houghtalen and Jim C. Loftis, WR Sept. 89 p616-629.

Major Water Resource Problems and Projects in China, Hou Yuguang and Wen-sen Chu, WR Jan. 88 p108-114.

Management of Phosphorus and Nitrogen Inputs to Lake Rotorua, New Zealand, J. C. Rutherford, R. D. Pridmore and E. White, WR July 89 p431-439.

Network Flow Algorithm Applied to California Aqueduct Simulation, Francis I. Chung, Michael C. Archer and Johannes J. DeVries, WR Mar. 89 p131-147.

New Federalism and Social and Environmental Goals, David H. Moreau, WR Jan. 89 p22-30.

Public Involvement, Conflict Management: Means to EQ and Social Objectives, Jerome Delli Priscoli, WR Jan. 89 p31-42.

Technology, Society, and Water Management, Warren Viessman, Jr., WR Jan. 89 p48-51.

Water and Urban Land-Use Planning in Cali, Colombia, Mark A. Ridgley, WR Nov. 89 p753-774.

Water Requirements Versus Water Availability in Saudi Arabia, Omar S. Abu Rizaiza and Mohamed N. Allam, WR Jan. 89 p64-74.

Water Resources Management in North China Plain, Robert Willis, Brad A. Finney and Daoshuai Zhang, WR Sept. 89 p598-615.

Water Resources of the GCC: International Aspects, Remy L. de Jong, WR July 89 p503-510.

Water rights

Network Models Water of Rights and System Operations, Charles M. Brendecke, William B. DeOreo, Elizabeth A. Payton and Lee T. Rozaklis, WR Sept. 89 p684-696.

Water Rights Modeling and Analysis, Ralph A. Wurbs and W. Brian Walls, WR July 89 p416-430.

Water shortage

Major Water Resource Problems and Projects in China, Hou Yuguang and Wen-sen Chu, WR Jan. 88 p108-114.

Water storage

Estimating Terminal Lake Level Frequencies, Lawrence H. Woodbury and G. Padmanabhan, WR May 89 p321-337.

Joint Reservoir and Aqueduct Design and Operation, Lawrence E. Flynn and Miguel A. Mariño, WR Mar. 88 p179-196.

Water supply

Design of Dilution Junctions for Water-Quality Control, D. Pessen, G. Sinai, K. H. Fasol and M. Reike, WR Nov. 89 p829-845.

Evaluation of Heuristic Program for Scheduling Treatment Plant Pumps, Pierre Lannuzel and Leonard Ortolano, WR July 89 p457-471.

Improving Water Delivery System Operation Using Training Simulators, Robert J. Houghtalen and Jim C. Loftis, WR Sept. 89 p616-629.

Network Models Water of Rights and System Operations, Charles M. Brendecke, William B. DeOreo, Elizabeth A. Payton and Lee T. Rozaklis, WR Sept. 89 p684-696.

Production, Cost, and Increased Salinity in Water, Donald E. Agthe and J. Craig Tinney, WR Nov. 89 p824-828.

Regionalization in Water Supply Industry: Status and Needs, Neil S. Grigg, WR May 89 p367-378.

Subsurface Water in River Beds as Source of Rural Water Supply Schemes, S. P. Rajagopalan and N. B. Narasimha Prasad, WR Mar. 89 p186-194.

Water and Urban Land-Use Planning in Cali, Colombia, Mark A. Ridgley, WR Nov. 89 p753-774.

Water Requirements Versus Water Availability in Saudi Arabia, Omar S. Abu Rizaiza and Mohamed N. Allam, WR Jan. 89 p64-74.

Water Supply Yield Analysis for the Washington Metropolitan Area, James A. Smith, WR Mar. 89 p230-242.

Water supply forecasting

Water Requirements Versus Water Availability in Saudi Arabia, Omar S. Abu Rizaiza and Mohamed N. Allam, WR Jan. 89 p64-74.

Water supply systems

Joint Reservoir and Aqueduct Design and Operation, Lawrence E. Flynn and Miguel A. Mariño, WR Mar. 88 p179-196.

Network Flow Algorithm Applied to California Aqueduct Simulation, Francis I. Chung, Michael C. Archer and Johannes J. DeVries, WR Mar. 89 p131-147.

Optimal Operation of Water Distribution Systems, U. Zessler and U. Shamir, WR Nov. 89 p735-752.

Water treatment

Evaluation of Heuristic Program for Scheduling Treatment Plant Pumps, Pierre Lannuzel and Leonard Ortolano, WR July 89 p457-471.

Water treatment plants

Evaluation of Heuristic Program for Scheduling Treatment Plant Pumps, Pierre Lannuzel and Leonard Ortolano, WR July 89 p457-471.

Water tunnels

Optimum Diversion Plan for Hydropower Scheme, Tawatchai Tingsanchali and Carlos C. Carriaga, WR Mar. 89 p195-211.

Water use

Production, Cost, and Increased Salinity in Water, Donald E. Agthe and J. Craig Tinney, WR Nov. 89 p824-828.

Rainfall Intervention Analysis for On-Line Applications, Tep Sastri and Juan B. Valdes, WR July 89 p397-415.
